April 21		

Entrepreneur Camp (LLC 4296)

Do you have a great idea? Do you want to have your own business someday? Do you like to create new things? You may be an Entrepreneur. One thing a good idea needs is a plan. In this class you will explore a variety of business options, and create a business plan for the idea you choose. You will learn how to develop your ideas, organize your facts, market your product/service, and potentially make a profit. You will use a variety of Microsoft Office software, the internet, basic accounting tools, and other creative arts materials as needed. At the end of this course you will have a basic business plan that you can present with visual aids, ready to find investors!

TY1 8a.m.-noon	S	Main \$199
Feb. 25 & March 10		

Computer Drafting for Kids (LLC 3519)

Take a fascinating journey into the world of computerized design drawings. Students will enjoy learning about AutoCAD design software in a hands-on classroom environment. Activities will include designing a personal version of a dream home, generating unique computerized drawings and learning common CAD symbols used by professionals. Perfect for any student interested in a career in the mechanical, architectural, or interior design field or for those who are intrigued by unique computer design programs; the possibilities are endless.

March 5		

Young Engineers (LLC 4085)

New!

Young engineers will love this hands-on, project oriented class. Students will design and build with everyday materials. Whether a balloon powered car or a crush resistant package, your child will gain knowledge of the team work and creativity used by teams of engineers when designing and refining these hands-on projects. All supplies will be included in camp cost. Bring a sack lunch.

TY1 9a.m.-1p.m.	S	Main \$69
March 10		

Fun Fuse Saturdays

New!

Learn the basic science behind glass and fusing and make stunning, one-of-a-kind pieces of art. The first class will consist of creating the artwork. The second class will be the glass gallery where students will be able to view all finished work and have a short critique discussing what they like in each piece. Parents or caregivers are encouraged to attend the second class to view the beautiful art!

Fun Fuse Saturdays (LLC 4418)

New!

4"x4" Hanging Glass Sun-catcher

Create a one-of-a-kind fused glass sun-catcher. Class covers glass cutting basics, fused glass principles and different methods of glass decoration. Kids will create glass samples using the techniques of glass painting, glass mosaics, and glass stringers. The sun catcher will be created using one of the principles discussed. No experience necessary. Samples will be made into magnets for the kids to take home. Kids younger than five must attend with an adult. **Please note: the March 3 class will meet from 10-11 a.m.**
